Wingellina Nickel Cobalt Project Irrunytju

Wingellina Project Update 4

-August 2025

NICOLu panya palyaningi Irrunytju/Wingellina project-pa.
Nico is developing the Wingellina Project.

panya 2021-pangka Nicolu metals x panya tjainytjamilanu tjunguringkula kutjupangu palyanytjaku.
In 2021, Nico was formed from Metals X to develop the Wingellina deposit.

panya Nicolu ngurini malpa kutjupangu palula tjungungku paiyamilantjaku
\$3000 million dollangka project nyanga palumpa.
Nico is looking for a partner to help pay for the development of the \$3000 million-dollar Wingellina Project.

WINGELLINA

Irrunytju/Wingellina la panya pulka palyantjaku ngarangi mine pangka palyantjaku 42 yia's pa
Wingellina is a large nickel-cobalt deposit which can be mined and processed (treated) for 42 years.

project nyanga paluru panya miningpa munu palyara mantjintjaku nickel munu cobalt panya pulinguru.
The Project is based on mining and processing (treatment) to get the nickel and cobalt out of the rock.

1. nganga develop/panya piti pulka palyantjaku. Develop/build an open pit mine.
2. munu panya palyani treatment plant-paku pulka palyantjaku. Build a processing/treatment plant.
3. panya nyakuntjikitjang plant nyanga palunya. Operate a processing plant
4. munu palulanguru palyantjikitjangku iwara munu kapinguru palyalpai tjuta kulu. Build infrastructure like roads, water supply and communications.
5. munu palulanguru iyalkulta NT Darwin ku munu WA kutu kulu Esperance ku. Transport processed nickel and cobalt to Darwin in the NT or Esperance in WA.

STATUS How It's Going Yatji kulini

The Native Title holders, the Ngaanyatjarra People, have a Project Agreement with Nico.
Native title kanyini Ngaanyatjarra Pitjantjatjara Nguraritja tjutangu, nyanga tjana kanyini project pa palyatjakitjangku Nicoku

Studies is 2022 showed Wingellina would have a long life of 42 years, low costs and good profits
2022 tungka Wingellinaku minepa nintini rawa ngaranytjaku 42 years, tjukutjuku paiyamilantjaku munu mani pulkanya malakungku ungkunyitjaku.

Environmental approvals were extended in 2024.
Tjana wangkuru palya nyura parangurini mantaku munu ngura nyakuntjikitjangku year nyangangka 2024

The Wingellina Project was given Major Project Status by the Federal Government in 2024, meaning it is very important. *In 2024 the Government said the Wingellina project is very important*
Federal government-pangu wangkuru 2024-angka tjana kulini Wingellina project pa pulka mulapa tjana palyantjikitja mukuringanyi

In 2025 Nico continues to work on the Project, even though the price of nickel is low.
Kuwarinyanga 2025-angka Nicolu tjana titutjarangu project nyanga palunya rawangu warkarira palyaningi. kuwari nickel price nyangatja kuluparingu.

When nickel price goes up Nico wants to be ready to start
Niconya patani price katuringkunyangka, nyarapalulanguru tjana warkaku tjataringanyi

Project Update 4
July 2025

Today, the work we are doing is geology, engineering, metallurgy and studies to better understand the mineral ore and how to process (treat) or break it down. *(learning about rocks, how to do machines, learning about metal)*
Tjintu nyangangka, warka kuwari palyani puliku nintiringanyi, machinepangka munu palyanyi, Metalku nintiringanyi munu nyarapalulanguru yaltji yaltji palyantjikitjangku mutunymuntunymara.

A transport study has been finished so Nico can look at transporting goods east and north to Darwin or south-east to Esperance. *Nico looked at which way to go on the road, from east to north to Darwin or south-west to Esperance*
Palutjana nyakula yaltji kulini ankuntjaku iwara kakarata, alintjara Darwintakutu, munu tjingu ulparira wilarara Esperancetakutu.

POINTS: kulira ngurkantanyi

Transport: iyantjikitjangku

The Project will use a route either east to the Central Australian Railway and north to Darwin Port, or south-west to Leonora and south to the Esperance Port.

project panya nyanga palunya tjana palyani ngura alinytjara, ulparira munu wilurara iyantjikitjangku tjinguru Darwin ku munu tjinguru Leonora ku munu Esperance-takutu kulu

Energy/Power: Pawa

Renewable steam, solar and wind energy, with gas from Amadeus Basin will power the Project.

project panya nyanga palunya nyuwana palyani tjintunguru munu walpanguru munu gas-pa kulu kulu pawa tjungu ngaranytjaku Amadeus Basin paluru pawa palyantjikitjangku project nyanga palulanguru

Size: tjinguru pulka munu kulupa

Nico is studying a smaller 20-year project at lower costs and better ore (rock).

Nico nya nintiringanyi tjukutjukunguru palyantjikitja 20-yianguru tjinguru palya kulunypa palyalku puli palyanguru

Nickel Price: tjana payamilantjaku

The long term growth for the price of nickel is quite good with strong demand in stainless steel and batteries.

Rawa kunpu pulka ngaranytjaku nickel price katu ngaranyi. Nyaaku, kutjupa kutjupa panya mukuringkula palyanyi stainless steel munu paturi tjuta.

Nickel

Nickel is used in stainless steel, electronics and energy systems with growing demand from electric vehicles and energy storage.

Tjana palyalpai stainless steel, electronics munu pawaku munu mutukanguru munu kutjupa kutjupa tjuta winki.

Community: Ngura

The Wingellina project will provide work for a long time for your children, for WA, SA and NT. There will be training, jobs, sharing buildings, services and making the community better.

Wingellina projectku warka rawa ngaranyi tjitji malatjamalatja tjutangu nyakunyitjaku, WA SA munu NT. Training ngaranyi, wali pulkangka tjungungku ngapartji ngarpartji palyantjaku, ngura wiru kanyintjaku munu kutjupa kutjupa tjuta palyara nintiringkunyitjaku

Benefits What you gonna get Nyan manytjilku

Wingellina will:

Wingellinalu mantjini

- Make payments to the traditional owners Nguraritja tjutangu mani mantjintjaku
- Provide about 500 jobs warka 500 ngaranyi palyantjaku
- Pay Federal government tax of more than (4.2 thousand million) munu government kulu paiyamilani tax 4.2 thousand million dollar angka munkara
- Pay the WA government of more than \$1B munu paiyamilani government wiluraranguru (WA) \$1B angka munkara
